RE: Approval of Closure Description Document (CDD) for Closure of RCRA Treatment Unit 750.3a at the 750 Pad at the Rocky Flats Environmental Technology Site (RFETS)

Dear Ms Berardini and Mr Legare

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the "Division"), has received your notice of intent to partially close RCRA Treatment Unit 750 3a and has reviewed the *Closure Description Document for RCRA Closure of Unit 750 3a "Sludge Dewatering and Stabilization Process"*. The Division received this CDD from DOE and Kaiser-Hill on May 15, 2002. This CDD applies to Treatment Unit 750 3a and the associated ancillary equipment located in Tent 5 at the 750 Pad. Removal and closure of the asphalt pad, whereupon Unit 750 3a is located, is deferred to decommissioning and environmental restoration activities conducted pursuant to the Rocky Flats Cleanup Agreement (RFCA).

As stated in the CDD, Treatment Unit 750 3a (and associated ancillary equipment) will be closed by the method described as "Unit Removal" in the Closure Plan (Section X) of the RFETS RCRA Permit No CO-97-05-30-01. In accordance with Permit Condition X.B 3 of the RFETS RCRA Permit No CO-97-05-30-01, the Division hereby approves this CDD for the closure of RCRA Treatment Unit 750 3a as described therein. If you have any questions concerning this matter, please contact James Hindman at (303) 692-3345.

Sincerely,

Joe Schieffelin
